If you are interested in being an integral part of a fast growing team with tremendous growth possibilities, and you are hardworking, have a strong attention to detail, and are willing to learn – apply today! <https://cststudio.com/careers/>

About CST Studio

CST Studio (CST) is a full service texturing facility. Our expertise is applying textured surface finishes via chemical or laser engraving to mold surfaces. Our highly skilled team pride ourselves in both state of the art design and technical aspects of texturing. CST also provides emergency grain repairs and trusted grain consultation/support pre and post grain. We focus on making texture simplified.

Job Description

We are looking for a design technician to digitally create and correct texture patterns for application to steel surfaces for the tool and mold industry. Will be trained to digitally print and inspect designs for production application, as well as to prepare and use the vinyl plotter to provide templates for layout applications. Also will be trained to support in preparing presentations, using CAD software for production review and 2D/3D rendering for visual texture/pattern design approvals for both chemical and laser applications.

Qualifications

- Ability to work with minimum supervision
- Extreme attention to fine details in design and quality inspection
- Capable of multi-tasking and prioritizing work
- Experience in Photoshop
- Experience in CAD software (Rhino a plus)
- Desire to learn new skills and technical knowledge of the industry

Job Type

- Full-time + Overtime
- Monday through Friday (Saturday AM as needed)

Wage

- Industry competitive based on experience

Benefits

- Paid time off
- RRSP (Company contribution)
- Medical Coverage
- Dental Coverage
- Vision Coverage
- Safety Shoe Coverage
